

Hutton Junior Fisheries Biology Program

Stimulating career interest in Fisheries Science among young people since 2001

Don't miss this opportunity to share your expertise and help shape the fisheries biologists of the future!

Become a Hutton Mentor today!

Hutton Program mentors:

- A Ybhc f'U'gfi XYbhiZcf, !k YY_g
- Share their passion for fisheries
- Receive assistance with important summer projects
- Help diversify & strengthen the fisheries profession
- Educate high school students about the importance of aquatic conservation & management

Responsibilities of Hutton Mentors:

- Fill out a brief application about the 8-week experience and append your CV
- Supervise the student's work or provide a series of experiences with several agencies or organizations
- Send a 1-page report at middle and end of the summer

AFS staff simplifies mentors' involvement by:

- Program advertising & student recruitment
- Conducting the student applicant review & selection process
- Disbursement of scholarship funds
- Providing liability insurance to cover all interns & mentors
- Tracking educational & professional progress of Hutton alumni
- Provide funding for scholarships and program administration costs

Mentors hold the key to engage, inspire and enrich the next generation of fisheries professionals

AFS staff are committed to working with mentors during the Hutton Program for a rewarding experience for everyone
