

Hutton Junior Fisheries Biology Program

Do you want to Inspire young high school students?

Do you desire to share your Passion for fisheries?

Do you want to participate in promoting
Diversity and Inclusion in fisheries?

APPLY TO BE A HUTTON MENTOR TODAY!

The Hutton Junior Fisheries Biology Program is a paid summer internship and mentoring program for high school juniors and seniors interested in pursuing the disciplines of fisheries science, marine biology, and STEM related fields, and is sponsored by the American Fisheries Society (AFS). From the beginning of the program in 2001 to 2018, the program has offered scholarships to 646 students with the help of 684 Mentors in over 150 host and financially sponsoring institutions.

Selected students known as Hutton Scholars, are matched and mentored by a fisheries professional to enjoy an 8-week hands-on fisheries science summer experience in a marine and/or freshwater setting.

Our Vision:

The principle goal of the Hutton program is to stimulate interest in careers in fisheries science and management among groups underrepresented in the fisheries professions, including minorities and women.

Mentors hold the key to Engage, Inspire and Enrich the next generation of fisheries professionals. Apply today to partner with AFS staff to help prepare the future of fisheries.

Apply Online for Summer 2019 at <http://hutton.fisheries.org>

Application Deadline: February 15, 2019
