

The **Hutton Junior Fisheries Biology Program** is a paid summer internship and mentoring program for rising high school seniors and rising college freshmen, sponsored by the American Fisheries Society (AFS). This program is for students interested in pursuing the disciplines of **fisheries science and management** and/or **natural resources related fields**. Over the past 24 years (2001-2024), AFS has offered internship opportunities to 830 students with the help of 800 Mentors in over 150 host and financially sponsoring institutions.

Selected students known as Hutton Scholars, are matched and mentored by a fisheries professional to enjoy an 8-week hands-on fisheries science summer experience in a marine and/or freshwater setting.

### Who Applies?:

- High school rising seniors, and graduated seniors (class of 2025 and 2026)

We accept applicants from all 50 states, Puerto Rico, Canada, and

- Mexico

A diverse range of students with a passion for fisheries, biology, and environmental science

### Program Details:

- Students receive a \$3,000 stipend, provided by AFS
- Flexible internship start and end dates
- Students work flexible 32 hour work weeks
- Student liability is covered by AFS
